

Third Grade Virtual Learning Tasks Due February 12, 2019

Math Assignment

Parents: Lesson Focus

For this lesson, students will view the Division Strategy videos. They will then complete the quadrant chart worksheet and show all their work as they demonstrate knowledge of each strategy. If your child has lost the worksheet that was sent home with them on Tuesday, you may download and print one directly off this site.

Please note: For further information on these division strategies, you may go to our third-grade class website: highlandthirdgrade.weebly.com. Go to the page labeled **Parent Math Resources** and scroll down to Division Strategies.

Student Directions:

1. Press the button titled "Division as Sharing and Equal Groups." View the video.
2. Press the button titled "Division Using Repeated Subtraction." View the video.
3. Press the button titled "Division Using Fact Families." View the video.
4. Complete the worksheet that was given to you on Tuesday, and return it to school by February 6 to receive credit for this assignment.

Language Arts Assignment

Parents:

For this lesson, students will use the YouTube video as a teaching tool to learn about Fact and Opinion. They will then take an on-line quiz to practice this concept. Your child will read the story and demonstrate knowledge of this concept by completing the worksheet.

Student Directions:

1. Press the button titled "Fact and Opinion You Tube Website." Watch the video.
2. Press the button titled "Fact and Opinion Online Game." Take the quiz on this site.
3. Press the button titled "Fact and Opinion You Tube Link For Story." Read this story to complete the worksheet. Reread the story!
4. Complete the worksheet that was given to you on Tuesday, and return it to school by February 6 to receive credit for this assignment.
